***Strongest Bin Ever Made!***

With over 110 variations, the ArmorBin® is what the industry has been waiting for. Available in both dry blend resins and premium melt blend resins, the ArmorBin® is the strongest, most durable bin available in today's market. The ArmorBin® interior walls are the smoothest out there, which makes cleanup easy and efficient.

## Features

Stackable 2 high with optional cover.

Designed to nest efficiently.

Denesting prevents bins from sticking together.

Stainless steel hardware is used to fasten replaceable bases.

Specially formulated colored resin is available to increase impact strength by up to 50%.

Superior pallet design resists wear through.

Process creates extra thick corners to resist cracking.

Optional drains are available.

Company Branding and color choices are available.

RFID Identification chip tracking system available

### Two High With Optional Lid

With the optional lid you can stack your ArmorBins® even when its fully loaded.

### Denesting Ledge

The nesting ledge rests on the top of the bottom bin. This prevents the bins from wedging inside one another.

## Company Branding

Stenciling

Engraving

Mold in Graphics

The ArmorBin® series comes in 11 different heights, ranging from 33" to 62" high. The ArmorBin® fork-entry system has been engineered with a large radius to help deflect fork strikes. The ArmorBin® is also available with optional drains and covers.

### Seamless Lip

A seamless lip means product doesn't stick to the bin. Combined with our innovative stick-resistant plastic, our ArmorBin® means easier cleaning, and less time compared to competitor bins.

### Stainless Steel Hardware

We use only stainless steel hardware to attach the replaceable bases to the bins. This prevents corrosion and increase the longevity of the bin.

### Easy Entry Fork Lift

We provide multiple pallet options to ensure easy implementation into your operation. Four-way and Two-way entries with optional rollover bases are available.

**1000 2000**  
**3000 4000**

**Footprint: 48" x 44"**

### **ArmorBin® 1000 Series**

Our 1000 series ArmorBin® features a four-way fork entry with a molded in-pallet base.

### **ArmorBin® 2000 Series**

Our 2000 series ArmorBin® features a two-way fork entry with a molded in-pallet base.
